

Responses to Consultation on proposals to grant a long-term licence to DX (Document Exchange) Limited

1) Postwatch

Proposal to grant a long-term licence to DX (Document Exchange) Limited.

Postwatch note that DX (Document Exchange) Limited will become a subsidiary of Hays Plc prior to the granting of any licence and that if a new licence is issued Postcomm will revoke the long term licence held by Hays Commercial Services Ltd. Given the aforementioned points we have no objections to the proposal to issue a long-term licence to DX (Document Exchange) Limited and agree that it should have no appreciable effect on the provision of a universal service.

Yours sincerely

Subject: Re: Postcomm consults on licence application from OX (Document Exchange) Ltd

Just keep going and in the end there will be NO postal services for the general public just businesses
