Dear Richard

## **Proposed Standard Licence to Mercury International Limited**

Postwatch welcomes the proposal to issue a single licence in the name of Mercury International Limited to replace the existing two - Deutsche Post Global Mail (UK) Limited and Speedmail International Limited. We appreciate this is to create a single legal entity for the Deutsche Post AG UK mail business.

We understand that obtaining a single licence will have no impact on the services the current licensees provide and therefore have no objections to this proposal.

Postwatch shares Postcomm's view that to grant Mercury International Limited a licence should further the interest of postal service users. And we agree that this should have no appreciable adverse effect on the provision of a universal service in the United Kingdom.

Yours sincerely
